

A5 Sustainable Paper Hand Waving Flags

Last Updated: 14/09/2022 11:47:00

Paper hand waving flags are ideal for supporters and spectators to wave at events **indoors or outdoors**.

Made from **sustainable, recyclable & environmentally friendly** materials; both the pennant **and** the flagstick are made from **paper**, which are easily recycled with domestic or commercial paper and card.

Designed to exceed child-safety regulations in the UK and Europe, our flags are regularly tested to pass **EN71** toy safety standards and are **UKCA** and **CE** marked.

Each flag is made with automated machinery to ensure quality, consistency, reliability, and production efficiency.

A5 flags provide a larger 'real-estate' for your design or branding than our Standard (170mm x 130mm) flags.

For a greater impact, we also offer A4 handwaving flags.

Features

- ✓ Paper Construction
- ✓ Recyclable - Domestic & Commercial
- ✓ Child Safe - EN71 Toy Safety Tested
